

# Sonoran Desert Gems

## Real Crystal Paints Workshop

Part 1: (30 min) Begin and set the Intention

Meet, greet and settle into the why and how of working with genstone-based paints. As our energetic allies, crystals are our guide into areas of work and exploration of ourselves. Painting with them is a radical approach, intimate, individual and richly creative.

Part 2: (60 - 80 min) Let's Paint ...

with gems that allow us to connect more deeply truly with the desert around us.

We walk through the delightfully rebellious act of painting freely, with few rules and let the crystals weave and dance in the water - literally they almost paint themselves.

We try one paint of three, explore what they do and how they interact and then we turn up the music and paint multiple pieces, moving energy and crystals in a personal way that feels right.

The Blending Bar is now open as well to make your own... for an optional go at making your own unique paint no other will have, charged not only with clear or rows quartz but with silver as well.

Break for drying, and refreshments (45 min)

Part 3: (1.5h) Creative Victory!

How to Finishing art works and next steps The art of finishing, a good crop and more...

Part 4: The Takeway

Gallery show! Share, laugh and stand in the light of creative victory. Close with intention, reflection and grace.
